

# On-Set Practices Agreement for COVID-19 Prevention

**PLEASE READ THOROUGHLY, initial each, and sign**

\_\_\_\_\_ **Masks:** All participants on set, including but not limited to Clients, Talent, and Crew must wear masks **over mouth AND nose** at all times while on Brewery Property (indoors AND outdoors). Talent is required to wear masks when they are not performing. **Please bring your own masks.**

\_\_\_\_\_ **Closed Set:** Only essential Talent and / or Crew is permitted on set. No friends, family, or other non-essential personnel are allowed. No pets. Clients are encouraged to participate remotely through the convenient systems that have been put in place to ensure that the client can see all images as they are being photographed.

\_\_\_\_\_ **On-Set Hygiene:** All equipment, props, garment bags, personal items, etc. should be disinfected prior to entering the location and should otherwise be sprayed/ wiped down as needed throughout the day. Frequent hand washing/ sanitizing is the cornerstone of infection prevention and needs to be practiced often. Your designated hand washing station is the bathroom sink and is supplied with hand soap and paper towels.

\_\_\_\_\_ **Physical Distancing:** Please maintain the 6 foot social distancing standard throughout the day and refrain from close contact. A close contact is any person who is within 6 feet more than 10 minutes of an individual or had unprotected direct contact to bodily fluids (e.g cough or sneeze or sharing a drink or utensil). Talent and Crew (Stylist, Hair & Makeup, etc.) that need to be in close contact with one another must wear appropriate PPE (gloves, masks, face shields, etc.) whenever possible and must try to keep close contact as short as possible. The number of people involved in close contact with Talent should be kept to a minimum.

\_\_\_\_\_ **Food and Beverages:** Please bring your own water to drink, and any snacks you need so as to minimize the number of items that can be cross contaminated. As face coverings cannot be worn while eating or drinking, please maintain the 6 foot social distancing standard while eating/ drinking. Wash hands thoroughly with soap before and after eating.

\_\_\_\_\_ **Cleaning/Disinfecting:** The location will clean and disinfect all high-touch surfaces prior to each shoot.

\_\_\_\_\_ **Ventilation:** The studio has very high ceilings and multiple fans in order to keep air circulation and reduce the chances of high viral load in the case of an unknown infected person on site. During hair / makeup, a fan will be placed in the window directly next to the hair / makeup station, venting outward so as to draw away air and vent it outside. If the weather is hot, this window will be closed after hair / makeup is complete and the air conditioner will be run. In addition, there is a large air purifier running at all times in the space.
